Concord, NH 03301-2430

Re: Section 1332 Waiver 2024 Reinsurance Parameters

Dear Commissioner Nicolopoulos:

At the New Hampshire Health Plan (NHHP) board meeting on Thursday March 23, 2023, the proposed reinsurance parameters for the 2024 benefit year were presented by NHHP management and Leif Associates of Denver CO, the NHHP actuary.

NHHP management worked with representatives of the three carriers who will participate in the reinsurance program in the development of these parameters.

The proposed parameters have a specific attachment point of \$60,000 and an annual maximum aggregate claim cap of \$400,000 per covered individual. The target reinsurance percentage is 49%. The NHHP Board voted unanimously to approve these 2024 reinsurance parameters and directed me to forward them to you for your approval.

Your representative on the NHHP Board, Mr. Jason Dexter, is fully aware of and participated in the Actuarial Work Group (AWG) meetings where these parameters were developed.
