

NEW HAMPSHIRE HEALTH PLAN

RFP Dated June 21, 2024

**A New Hampshire Ground Ambulance Cost Study  
and The Development of an Illustrative, Cost-Based  
Reimbursement Rate Schedule for Ground Ambulance Services**

ANSWERS TO POTENTIAL BIDDERS' QUESTIONS

Updated July 8, 2024

Question 1: To what extent do you possess GADCS data to provide to vendors?

Answer: The NHID/NHHP is not currently in receipt of any cost report data from GADCS. We have reached out to CMS and are seeking a meeting to discuss getting direct access to their cost report data received from New Hampshire ground ambulance providers at the request of those data submitters. In the alternative, it is the presumption of NHID/NHHP that ambulance providers that have submitted to GADCS—or are in the process of submission—will maintain the submission file or will have access to the submission file and that the successful bidder will be able to request this file from target entities.

Question 2: What share of entities in NH have completed the CMS version of this data collection tool?

Answer: CMS/GADCS has posted on their website the list of ground ambulance providers in each state that have been selected to complete the cost reporting template. According to this list, 131 New Hampshire ground ambulance providers have been selected. According to a 2018 report by the National Highway Traffic Safety Administration, the New Hampshire EMS system contains over 300 licensed EMS agencies. The following table of New Hampshire providers selected to submit data was gleaned from the CMS/GADCS list:

<i>Sampled National Provider Identifier (NPI)</i>	<i>NPPEs Organization Name</i>	<i>NPPEs Practice Address State</i>	<i>NPPEs Mailing Address State</i>
1023092053	MARY HITCHCOCK MEMORIAL HOSPITAL	NH	MA

It is unknown whether the above providers have completed the survey and submitted the requested data.

Question 3: What is the maximum score for the Price Proposal?

Answer: The maximum score for the Price Proposal is 10 points. The points listed in section 6.7 are a typographical error.

Question 4: Section 2.1 Minimum Vendor Qualifications states that “vendor must have capacity to manage large data sets...” what format are the data sets in?

Answer: The GADCS files are .xls files and the data from the all-payer claims database is in .txt format. These files are large and may exceed 20GB of data. The vendor will be able to select the format of any additional data submissions. The vendor will be expected to have a team that includes highly-skilled data users with experience using statistical software programs such as R, Python, SAS, SPSS, or STATA.

Question 5: Stakeholder Advisor Group (SAG)

(a) Does NHHP have specific individuals identified for the SAG?

Answer: No, the vendor will be responsible for identifying and convening the SAG with direct guidance from NHID. The SAG should include a diverse and balanced group of stakeholders including payers, consumer representatives, elected officials, ambulance providers, and hospital representatives. The SAG could include participants from NHID’s Ambulance Summit, but the vendor will be responsible for selecting participants and will need to ensure that the SAG includes a diverse and balanced group of representatives.

(b) What project activities will the SAG be involved in?

Answer: The SAG should be convened and at a minimum consulted in Phase 1 and Phase 3. The purpose of the consultations are to understand various perspectives and New Hampshire specific nuances of ground ambulance billing and delivery services. The vendor may also want SAG input for the proposed data request to ensure the feasibility of collecting such data and to streamline the collection process. The SAG should also be consulted in Phase 3, to provide feedback to the vendor prior to finalizing the report. The vendor may also want to consult with the SAG at other times throughout the project as issues come up or to solicit feedback. However, any additional meetings with the SAG will be within the discretion of the vendor.

(c) Are the stakeholders generally supportive of the project?

Answer: Stakeholder perspectives vary regarding ground ambulance billing. This study was the product of a legislative compromise to address the issue but was not necessarily a compromise of the stakeholders. Please consult the legislative history here: [Current Legislation Search \(state.nh.us\)](https://www.nh.gov/legislature/legislation-search) for more information regarding the various perspectives.

Question 6: Does NHID/NHHP have information on the amount of subsidized public funding for ground ambulance services?

Answer: No, the amount of public funding available to municipal ambulance providers is not known and would need to be collected from ambulance providers.

Question 7: Have the ambulance service providers already been notified that they will be required to submit the requested data?

Answer: Ambulance providers may be aware of SB407 but no formal notification has yet been made regarding the upcoming data submission.

Question 8: Are there enforcement mechanisms in place for providers that refuse to submit?

Answer: SB 407 states the following:

The commissioner of the department of safety shall have authority to enforce this reporting requirement upon ground ambulance providers under the general supervision and specific enforcement authority conferred by RSA 153-A and shall work with the commissioner to set a deadline for ground ambulance providers to submit their cost reports that is sufficient to facilitate the completion of the study and report provided for in this section in a timely manner.

Question 9: Are electronic signatures acceptable for submitting the proposal?

Answer: Yes, electronic signatures are acceptable.

Question 10: How much advanced notice could be expected should oral interviews be needed?

Answer: Oral interviews will only be conducted if deemed necessary by NHHP. If such interviews are deemed necessary, NHHP will conduct the interviews on July 26, 2024, between the hours of 8:00am and 12:00pm ET. Notice of the interview will be provided no later than 5:00pm ET on July 25, 2024.
